Reconstruction File

Name 1 (Matriculation Nr 1), Name 2 (Matriculation Nr 2)

WS 2026

1 This section recalls markups & references.

A new paragraph needs to be started explicitly by special structure.

Additionally, even though we learned that the command "\LaTeX" has no argument, you may need to write "\LaTeX{}" to get LaTeX with the correct spacing. If I want to emphasize *something*, then I obviously need to pass something as an argument.

Below is a list of awesome properties. It is the only list in section 1.

- Property
- **Another Property**[1]

[1] I know this is not the prettiest document.
